

Air/Ground Radio Ops ROCC Course

EDUCATION MODULE

POINTS

This course is an **EDUCATION** module for

 **BRONZE**

 **SILVER**

 **GOLD**

 **DIAMOND**

You will also be able to apply for the ROCC from the CAA on successful completion.

HOW TO BOOK

Courses are available across the country or you can arrange one for your club via the CAA examiner list <https://bit.ly/ROCCExaminers>

The LAA also arrange these courses from time to time so keep an eye on their pages here <https://bit.ly/LAACourses>

COSTS

Course costs range from £150 to £300 for standard courses; you may be able to find a cheaper route if the course is laid on by your club and the costs of an examiner shared between you.

OBJECTIVE

This course covers both training and examinations for the issue of a CAA Radio Operators certificate of Competence (ROCC)

BACKGROUND

This course provides the necessary skills and qualification required by operators of ground-based radio equipment at flying sites and events where an air to ground radio service is provided.

SYLLABUS

The full syllabus can be found via CAA publication CAP452 and CAP413 and includes:

-  Operational procedures
-  Radio techniques
-  R/T terminology
-  Phraseology, phonetics & numbers
-  Airspace & CTZ
-  Pre-flight calls
-  Departures and arrival calls
-  Circuit calls
-  Transiting traffic calls
-  Flight planning and clearances
-  Emergencies initial response
-  Coordination with the emergency services.
