### HOW TO BOOK

[The Light Aircraft Company](#) run 4 courses a year on the market leading aircraft covering system Oratex.

It is a full day course with a maximum of 5 people to ensure that a high level of instructor time is available for people under training, the day starts promptly at 9am and finishes at 5pm.

Full details including contact and booking on TLAC website at <https://bit.ly/BMAATLAC>

### COSTS

The cost for the day is £150 plus VAT, this charge is rebated

### OBJECTIVE

The aim of the course is to develop the skills needed to work with the Oratex material.

### BACKGROUND

Oratex has become a benchmark covering system which eliminates all of the problems associated with the old legacy covering materials, it is widely accepted by the LAA and BMAA as a go to product, it also has a wide range of STC's for EASA aircraft and gliders. The thought of recovering an aircraft normally strikes fear into aircraft owners, taking them out of their comfort zone on skills, concerns about health dealing with toxic chemicals, having to apply 8 or 9 coats of dangerous chemicals by brush or spray and leaving their aircraft overweight with layers of paint, dope and sealants...Oratex eliminates all of those concerns and more.

### PROVIDERS

#### The basic syllabus covers:

-  Understanding the Oratex covering manual
-  Tools of the trade
-  Key features, advantages and benefits of the Oratex product range
