

This guide covers all microlight-legal aircraft offered or planned for the UK market, provided sales and support are available in Britain and the manufacturer/importer has responded to our enquiries regarding pricing and availability.

Within each control system of aircraft, solo machines are listed first, then dual, alphabetically in each case.

Electric and hybrid aircraft are shown in green.

All information is believed correct at the time of going to press, but no responsibility can be accepted for errors.

Help us keep it current, send feedback to nburr5006@gmail.com.

General notes

- Prices shown in £ sterling unless otherwise marked and include VAT where appropriate, but purchasers should check current price before ordering, particularly with imported machines.
- We list the most basic of each version, with the engine type shown at the end of the aircraft name. Notes indicate options etc, but because of space limitations these are not exhaustive, so check suppliers' information to ensure you are comparing like with like.
- Imported aircraft are listed under the name of the original designer/manufacturer, with the importer in brackets. Aircraft made overseas under subcontract to a British company, and overseas designs made in Britain under licence, are not regarded as imports for the purposes of this table.
- You should consider conversion training when purchasing an unfamiliar type.

Notes to the table

- Fully built but supplied without engine, paint, avionics; delivery extra

- Basic price, without options but including registration. Engine choice Corsair M25Y; Polini Thor 200, Polini Thor 250. Various alternative wings. Kits available
- 912 engine standard, 912S engine extra
- Excludes engine, prop, instruments
- Basic kit, excludes engine; other kits available
- Mainstream model, several other wings available
- Basic version: Options include Compact trike unit (break-down version), Polini Thor 250 engine, Discus 14T instead of 15T.
- Excludes firewall-forward, instruments and covering
- Rotax 912S £5000 extra
- Basic kit without firewall-forwards components and instruments. For complete kit (excluding engine and prop) add £7250
- Includes engine, prop and instruments
- Rotax 912S £6000 extra
- Fuselage and airframe finishing kit: excludes firewall forward
- Excludes wing
- Basic kit without firewall-forwards components and
