

NOTICE TO PILOTS WANTING TO DEMONSTRATE THEIR AIRCRAFT

The SSSR Freedom Rally is not a public display but a privately hosted fly-in (rally) run by the BMAA. If pilots want to demonstrate the performance characteristics of their aircraft they **MUST KEEP TO THE SOUTH** of the black line shown on the image above. This will keep them at least 500 feet from anyone attending the event and should allow enough space to climb to clear the public road at the west end of the runway by 500 feet if you have not landed.
