BMAA TECHNICAL TEAM

1. Introduction

This document lists BMAA members who have indicated that they have suitable skills and/or experience and may be willing to assist other members in making engineering submissions to the BMAA Technical Office.

Please note that BMAA Technical Team members carry no qualification or authority from the BMAA. As with any external consultant, BMAA Technical Team members are employed under terms agreed between you and the consultant, and therefore at your own risk.

If you wish to be added to this list please contact the Chief Technical Officer.

2. The BMAA Technical Team
